BREACHLAB

OPERATIVE CERTIFICATION · GHOST TRACK

THIS CERTIFIES THAT

decoy

SCAN TO VERIFY

has completed the Ghost track in full — twenty-two public levels and the classified graduation gate — and is recognized as a **BreachLab Ghost Operative**, with demonstrated proficiency across the full Linux exploitation surface required of every modern security specialist.

“Ghost was selection. This is graduation. Clear this and you are no longer a beginner — you are an operative. Every future BreachLab track is open to you. The real work starts now.”

TRACK	DATE OF GRADUATION	CREDENTIAL ID
Ghost	2026-07-13	GHST-933A-26B2-B8F0

DEMONSTRATED COMPETENCIES

- Shell forensics · file discovery · permission analysis
- Encoding pivots · multi-layer payload extraction
- Cron auditing · SUID abuse · filesystem privilege gradients
- Script-driven brute force · service protocol fuzzing
- Network reconnaissance · banner grabbing · TLS handshake
- SSH key authentication · bashrc bypass · restricted shells
- Git history forensics · leaked-secret recovery

OFFICIAL SEAL

BreachLab Command

Operator certification authority

Issued 2026-07-13 · irrevocable
